

# DURGA

# 11

Academic Year 2006-07: Durga's marks in terminal exams at the nursery school level are so high they are virtually all touching the 100% level. His social development seems equally high with a demonstrated ability to enjoy and cooperate with his classmates in classroom activities. He enjoys and performs well in music and drama and the recitation of poetry. His teachers characterize him as "outstanding," "highly motivated," and possessing an independent and creative mind.

Academic Year 2007-08...Durga has been promoted to Upper Kindergarten and has received unanimous accolades from his teachers such as, "Well done! Keep it up," and "Durga has done well in all the subjects." His marks show a great preponderance of E's with a sprinkling of G's (for Good) in mathematics, science, and social studies. And it should be noted that many of the "G" grades involve motor skill development (such as "Can create patterns"), and as the year went by the G's became E's. The academic performance chart is in the 95 to 100 range throughout, and Durga seems clearly destined for strong academic achievement.
